## **PRESIDENT OPTIMISTIC IN OPENING ADDRESS TO FACULTY**

In his Tuesday opening address to the first general faculty meeting of the new academic year, President Angell called this a time for cautious optimism and cited positive ways in which Plattsburgh State is moving to counter "the major problems facing colleges and universities in the United States today."

Among the reasons for his optimism the President mentioned the constructive evaluation and self-renewal programs evident in various campus departments; the comparatively high level of academic support offered by the staff and facilities in the College's library and instructional resources departments; the willingness of college faculty to contribute to programs for flexible staffing (especially evidenced recently, said the President, in the education division and the biological sciences department); Plattsburgh State's record of systematic management of available resources; the success of the College-wide steering committee, and the co-operation and support of the non-teaching staff.

## **COLLEGE TO HOST NATIONAL FORENSIC CHAMPIONSHIPS TOURNAMENT**

Plattsburgh State will host more than 800 contestants and other participants from schools in 40 states when the National Forensic Championship Tournament is held here April 19 - 21, 1974. Efforts to secure the bid began last December and received the support of the Plattsburgh and Clinton County Chamber of Commerce, the Student Association, the Faculty of Humanities and the Department of Communications and Theatre Arts.

The three-day tournament, which has traditionally been held in large Mid-West cities, determines the national collegiate champions in public speaking events such as debate, oral interpretation of literature, dramatic performances, poetry reading and impromptu speaking.

According to a preliminary report issued by Alumni Relations Director Mal Lavery, more than 90 per cent of the members of the incoming freshman class (the Class of '78) are expected to participate in the Alumni Association's voluntary dues program. Lavery attributes the high level of freshman enthusiasm, in great part, to the efforts of the Undergraduate Alumni Council.

(over)

In addition, Lavery reports, the Association's graduate dues program is progressing at a rate four times greater than it experienced in 1972, and could result in 400 to 500 new life members by the end of the year.

Derek Allan (Facilities Planning Coordinator) and Dr. Joseph Burke (Vice President for Academic Affairs). Allan will serve as committee chairman.

Under Article XXXIX, Section D of the agreement, the joint committee is charged to meet at mutually convenient times to "discuss and recommend to the campus president necessary and desirable changes in physical facilities reasonably available to employees to permit them to carry out their professional responsibilities." At its organizational meeting yesterday, reported Allen, the committee agreed that its role will be to handle matters which campus individuals or groups feel cannot be resolved through normal administrative channels.

## **FACULTY SENATE FORWARDS APPROVED BYLAWS TO PRESIDENT**

The Faculty Senate Tuesday voted to adopt the revised faculty bylaws and forwarded the bylaws to President Angell for final approval.

The major bylaw document was approved by a vote of the total College faculty last spring. Tuesday's vote of the Faculty Senate approved six revisions or corrections of the bylaws which were deemed by the Senate Executive Committee, the Senate Ad Hoc Committee on Bylaw Review and administrative representatives to be necessary to the document's clarity.

The bylaw revisions approved by the Senate (and outlined in an August memorandum to the faculty from Senate Chairman Melvin Donaho):

- provide for appeal of exclusions from the Faculty Roster;
  - provide a statement of departmental and divisional responsibility for faculty evaluation;
  - provide an official Faculty Senate methodology for the evaluation of deans;
  - give faculty affairs committees the option, rather than the mandate, to make recommendations to the President regarding an individual faculty member's evaluation, promotion, etc.
- (Originally the bylaws stated that faculty affairs committees "shall make periodic recommendations . . ." -- the committees now "may make periodic recommendations . . .")

To ensure that evaluation of faculty will not be hampered during the current academic year by changes that might be mandated in the new bylaws, the Senate also approved a motion that gives each faculty governance group the option of having its faculty affairs committee operate either as currently elected or under the new bylaws.

Passage of the new bylaws will increase the Senate's membership by one, making the alternate University Faculty Senator (Dr. Howard Miller) a member of the local Senate.

The Senate tabled two proposed actions on graduate studies to enable further discussion of those proposals to take place.

## **COMMITTEE NAMED TO STUDY COMMENCEMENT PROGRAM**

Nine persons have accepted appointments to a campus committee to study improvement of the commencement program. Robert Kellett, assistant dean for student affairs, will chair the committee.

Named to the committee by the chairman of the Faculty Senate were Drs. Hans Hirsch and Mary Anne Poston; named by the president of the Student Association were students James Campbell, Thad Rutherford and Sussy Komala; selected by the president of SUNY/United was Dr. James Ashe; named to the committee by President Angell were Vice President Joseph Burke and Assistant to the President Don Garrant.

The September 6 issue of Weekly erred with its headline statement that the President's Steering Committee would "examine commencement. . . ." The Steering Committee is a shaping committee and does not exercise the authority that the September 6 headline implied.

## **STUDENT SENATE VOTES TO JOIN SASU**

By an affirmative vote of six to five, with two abstentions, the Student Senate Monday night approved an allocation of \$3,048 to pay initial membership fees in the state-wide student organization -- Student Association of State University (SASU). The allocation includes \$2,548 in dues for the current fiscal year and \$500 in back dues for Plattsburgh State's SASU representation from April 15 through June 30 of this year.

The current Senate is the third Plattsburgh State Student Senate which has argued the question of SASU membership, and the first local Student Senate to allocate student funds for SASU dues.

With the payment of dues, the Plattsburgh State student body becomes the twenty-first State University unit student body represented by SASU (from among 25 SUNY student bodies with organized student governments).

SASU maintains offices in Albany to represent the state-wide interests of State University students. In addition to its lobbying and informational missions, the three-year-old organization also maintains such student services as group travel programs, insurance plans and state-wide purchasing cooperatives.

The question of SASU membership was the subject of a campus-wide referendum last week, but the referendum failed to gain the return (20 per cent of the student body) necessary to be valid.

Volunteers are requested to contact the Admissions Office (2040) at their earliest convenience. Open House guides will be asked to attend a briefing and program orientation session at 4 p.m. Thursday, Oct. 11, in the 10th floor board room of the Kehoe Administration Building.

## HOMECOMING, OPEN HOUSES DOMINATE WEEKEND CALENDAR

Homecoming 1973, a Campus/Community Open House and an admissions open house dominate the calendar for what may be the busiest weekend of the year on the Plattsburgh State campus.

**Homecoming 1973 -- In Days of Olde** -- begins this evening with the crowning of the Homecoming Queen at a wine and cheese party in the Stage XIV Dining Hall. The full weekend calendar for undergraduates, including happy hours and bands at the Pub, the Friday night fireworks display, Saturday's Homecoming parade and football game, and Sunday's bicycle time trials, is printed in the weekly calendar on the back of this sheet.

For alumni returning to campus for the occasion, Homecoming '73 will also include Saturday luncheons for honored classes and the Annual Alumni Banquet Saturday evening. This year a dance in the Saranac Dining Hall will follow the annual Homecoming Banquet for alumni.

At its Annual Banquet, the Alumni Association will honor Miss Margaret Ryan -- a North Country native and principal of the AuSable Forks Elementary School -- as its Alumnus-of-the-Year for 1973.

**The Campus/Community Open House** -- scheduled Saturday afternoon from 2:00 until 5:00 -- is planned to bring community residents to campus to help celebrate the twenty-fifth anniversary of the State University of New York. The Open House planners hope to give visiting community residents an overview of the College's educational scope through a series of displays, exhibits and demonstrations prepared by departments representing all five of the academic faculties. Open House activities will be centered in the Kehoe Administration Building, the Myers Fine Arts Building, Yokum Communications Lecture Hall, Hudson Hall, Beaumont Hall and Memorial Hall.

**The Admissions Open House** -- a biannual event, will bring prospective freshmen and transfer students and their parents to campus Saturday for a day of meetings, tours and activities designed to acquaint them with Plattsburgh State. The schedule of events for the admissions' open house includes a Saturday morning general session in the Large Auditorium of Hawkins Hall, lunch in campus dining halls, dormitory tours, question and answer sessions regarding admissions, and tours of campus buildings with opportunity provided to meet College faculty.

## FINAL FIGURES SHOW ENROLLMENT DECLINE

Finalized figures show Plattsburgh State's enrollment is 202 students fewer than last fall.

President George Angell reported in a faculty meeting yesterday that 5,683 persons are attending the College now as compared to 5,885 students in attendance a year ago. The decline in enrollment came largely in the freshman class where 1,104 students are enrolled now compared to 1,412 students enrolled in the fall of 1972. Graduate enrollment (full and part-time) shows an increase of 105 students with 978 persons now enrolled. Undergraduate enrollment of 4,705 students includes 4,088 enrolled full-time and 617 enrolled on a part-time basis.

## FACULTY SENATE TABLES GRADES PROPOSAL, ACTS ON GRADUATE ADMISSION/MATRICULATION

The Faculty Senate Tuesday tabled a proposal to eliminate the present policy of posting senior grades prior to posting the grades of other students. The proposal also suggests amendment of the statement made by the President at the time he awards degrees at commencement, and would further stipulate that, "Students should be required to apply for the degree sufficiently early in their last semester to permit detection of any unfulfilled requirements some weeks prior to graduation." Tabling the proposal provides time for further study prior to an official Senate vote.

CAMPUS COMMUNITY OPEN HOUSE OCTOBER 13

Also at its Tuesday meeting, the Senate gave its approval to a policy stipulating the requirements for admission and matriculation of graduate students. The policy approved by the Senate was recommended by the ad hoc committee on graduate studies and was amended by the Senate only to clarify the status of unclassified graduate students.

Time limitations prohibited Senate action on proposed academic policies for graduate students, and those proposed policies have been referred to the agenda for the next Senate meeting.

## **PROMOTIONS OF TEACHING FACULTY ANNOUNCED**

President Angell has announced the promotions of 31 members of the teaching faculty.

The 31 were recommended for promotion by their colleagues and their academic dean.

In announcing the promotions, President Angell explained that he had understood that discretionary money to provide salary increases to accompany the promotions would by now have been approved in negotiations between the State and SUNY/United (bargaining agent for the SUNY's professional employees). Since those discretionary funds have not been agreed to, the President has made funds available from within the College budget to provide minimal increases to accompany the new promotions to each rank. When discretionary funds are available, the President said, the salary of each person promoted will be reviewed.

## **STUDENT COURT RULING VOIDS SENATE S.A.S.U. DECISION**

The Student Court published a decision last Thursday which declared one student bill unconstitutional; voided Senate action on four other bills (including the controversial bill providing for membership in Student Association of State University); ruled that appointed members of the Student Senate do not have the constitutional right to vote on matters before the Senate. The decision was the result of a case against the Student Senate brought before the Court by the Student Association Senate Operations Committee.

The basis for the complex court ruling was a decision that Student Bill #4 (which limited the amount of time that a proposed bill could be kept in committee) was unconstitutional. The Court consequently ordered four student bills (including the SASU bill) back into the Senate Operations Committee and declared void the Senate's October 1 action on those bills.

In explaining its decisions, the Court also ruled that only the elected members of the Student Senate may vote on matters before the Senate. Persons appointed to fill Senate vacancies and confirmed by the Senate, it said, are not eligible to vote. (There are currently ten elected and three appointed members of the Senate).

A complete copy of the court ruling and a recorded tape of the court proceedings is available in the Student Association Office.

## **GARRANT URGES UNITED FUND SUPPORT**

Campus United Fund campaign coordinator Don Garrant urges those members of the campus community who have not yet made their contributions to the 1973 campaign to do so by tomorrow -- the drive's announced closing date. Eleven of the 16 campus fund-raising divisions have completed their solicitations, and the total campus United Fund donation is now \$2,563.65. "I hope that Plattsburgh State can continue its generous record of support to the Clinton County United Fund," said Garrant, "for United Fund dollars sustain many of our vital community services."

## **FIELD STUDIES OFFERED IN MEXICO, QUEBEC**

Students have until November 15 to enroll in field studies to be conducted in Mexico and Quebec during the period between the first and second semesters.

Dr. Edward Worthen will lead a group of students in a field study of important and interesting Mexican cultural sights from which a three-credit, independent study project may be developed. The \$600 fee for the study will cover room, board and transportation fees (including air fare) for the three-week period from December 28 through January 15. Applications or requests for further information should be directed to Dr. Daniel Socolow in Hawkins Hall Room 155 (telephone 564-2086).

A ten-day field study of Quebec politics will be supervised from January 3-12 by Dr. Martin Lubin. The field study will include exposure to life styles in French-speaking Quebec, as well as study of political and social structures. **PLATTSBURGH STATE**

**NOV. 8, 1973**

## **COLLEGE RESPONDS TO CALL FOR FUEL CONSERVATION**

Responsive to concerns caused by the nation-wide energy crisis and in line with a proclamation by Governor Rockefeller, College officials have initiated a plan to reduce Plattsburgh State's fuel consumption by ten per cent during the coming heating season. The savings will be effected by reducing the temperature in all College buildings by five degrees and by further reducing average temperatures in selected buildings during vacation periods.

If the lowering of average temperatures causes undue hardship in any areas, those affected are asked to contact Malcolm Collin, director of the physical plant.

## **REFERENDUM ON NEW S.A. CONSTITUTION SCHEDULED WEDNESDAY AND THURSDAY**

Students will have the opportunity to approve or disapprove a proposed new Student Association constitution during a two-day campus referendum next Wednesday and Thursday (November 14 and 15). The proposed constitution was written during a 12-hour special meeting of the present Student Senate last Wednesday and proposes a student government with executive, legislative and judicial branches rather than the present two-branch form of student government which combines the legislative and executive arms into one body -- the Student Senate. The entire proposed constitution will be printed in this week's issue of Cardinal Points and will be posted at campus polling places during the referendum.

Voting for students living on campus will be conducted in College residence halls Wednesday from 10:00 a.m. until 7:00 p.m. Students residing off campus may vote either Thursday or Friday in Hawkins Hall or the Myers Fine Arts Building from 10:00 a.m. until 4:00 p.m., or in Macdonough Hall from 7:00 until 9:00 p.m.

## **COLLEGE ALUMNI ELECTED TO FOUR SEATS ON COUNTY LEGISLATURE**

As a result of Tuesday's general election, the 10-member Clinton County Legislature will include four Plattsburgh State alumni.

Joining incumbent James D. Sears ('54) in the Legislature are Don Garrant ('57), Robert Garrow ('52) and James Hutchinson ('39). Sears and Garrow are Democrats and Garrant and Hutchinson Republicans. Garrant is assistant to the president at the College.

The three new county lawmakers will assume office on January 1 for two-year terms.

## **PLATTSBURGH REPRESENTED AT STUDENT ASSEMBLY ORGANIZATIONAL MEETING**

Robert Rodriguez and James Campbell, Plattsburgh State representatives to the new state-wide Student Assembly, attended the organization's initial meeting held last weekend in Albany. The 66-member assembly was established by the Board of Trustees as an advisory body to facilitate student communication with the Board. The Assembly members represent students on all of the campuses of the State University.

Campbell, Plattsburgh's Student Senator for Communications and Public Relations and an elected representative to the Student Assembly, reported the results of the first Student Assembly meeting to Weekly. At the meeting, said Campbell, the Assembly approved resolutions defining its positions on Student Assembly representation, on Student Assembly prerogatives, and on the question of arming campus security forces. The Assembly also voted to incorporate the Student Association of State University (SASU, Inc.) as its corporate arm to serve research, information and student service functions and to represent the Student Assembly as a lobbying force in dealings with the State Legislature. A Student Assembly Constitution was also approved at the meeting, said Campbell, and is subject to ratification by student governments on the individual campuses of the University.

Rodriguez, the Plattsburgh Student Association President and vice chairperson of SASU, Inc., was elected vice chairperson of the Student Assembly. The Assembly also elected SASU, Inc., Chairman Brian Petraitis of Brockport State to serve as Student Assembly chairman.

## "MARIGOLDS" IN HARTMAN THEATRE THROUGH NOVEMBER 11

The current NTA production, "The Effect of Gamma Rays on Man-In-The-Moon-Marigolds" by Paul Zindel is a play about a latterly, neurotic woman who regards her children as afflictions -- and about her daughter who develops a brilliant talent for science despite the stunting environment of her mother's loveless home. Directed by Linda Smith, designed by Timothy Palkovic, and performed by Hilde Plosker, Diane Gangloff, Kathy Bryne, Diane Hortsmeier and Deborah Lynch, the show will appear nightly at 8:00 p.m. through Sunday evening in Hartman Theatre. ## **FACULTY SENATE PASSES RESOLUTION ON GRADES FOR GRADUATING SENIORS**

At its regular meeting Tuesday, the Faculty Senate passed and forwarded to the President a resolution on the filing of grades for graduating seniors. If approved and implemented, the policy would eliminate the requirement of grading graduating seniors before grading other students.

The resolution reads:

- "(a) Grades for graduating students will NOT be required prior to the grades of other students;
- (b) Each student is required to submit a course program checklist, approved by his/her Advisor, to the Registrar at least one semester prior to expected graduation. This list shall serve as the application for graduation and shall include all courses taken, courses in progress, and courses to be taken in the student's program. Any changes in the program must have the Advisor's approval."

The Senate also began discussion of proposed academic policies for graduate students.

The next meeting of the Senate will be held in Room 116 of the Myers Fine Arts Building at 4:10 p.m. on November 27. On the agenda for that meeting will be continued discussion of the proposed policies for graduate students, discussion of a proposed change in the Faculty Bylaws, and discussion of the impact of changes in the physical education policies.

## **SA CONSTITUTIONAL REFERENDUM CONCLUDES TODAY: MAY ALTER ELECTION TIMETABLE**

Voting in a referendum on a proposed new Student Association constitution will conclude today. Students who live on campus voted on the constitution in their residence halls yesterday. Off-campus residents may vote until 4:00 this afternoon at polls in Hawkins Hall or the Myers Fine Arts Building, or from 7:00 until 9:00 this evening at Macdonough Hall.

If the new constitution is approved, it will be necessary to change the schedule for the SA elections. Twenty-five persons have already filed petitions of candidacy for elections that are scheduled (under the present constitution) to be held November 27. If the present constitution remains in force after today's referendum, those 25 candidates will compete for the 17 student government positions described in the constitution.

If the new constitution is approved, SA elections will be moved back to December 4, and new candidates for office may file nominating petitions anytime during the period from Tuesday (November 20) until 4:30 p.m. November 28. Should the new constitution become effective, those 25 students who have already filed petitions of candidacy need only notify the Student Association Office on Monday (November 19) of their intent to run for office under the new constitution, and their names will be listed first on the December 4 ballot.

## **UNITED FUND TOTAL: \$11,363.95**

With some late contributions still expected, the campus fund drive for the benefit of the Clinton County United Fund has netted \$11,363.95 or \$237 short of its announced goal for 1973. Though the campus fund drive officially ended November 2, Plattsburgh State campaign coordinator Don Garrant is still hopeful that the expected late donations will put College receipts above the \$11,600 goal.

## **ALUMNI LIFE MEMBERSHIP UP NEARLY 400**

In its first major drive for dues, the Plattsburgh Alumni Association has collected \$5,952 and enrolled 398 new life members. Life membership in the Association entitles alumni to participate in a low-cost life insurance program and provides a life-long subscription to the bimonthly Alumni News. Alumni Association dues also underwrite the expenses incurred in administering such traditional programs as the Annual Alumni Fund for Student Scholarships and annual fall Alumni Homecoming.

## CAMPUS COMMITTEES TO EXAMINE FURTHER ENERGY CONVERSATION MEASURES

Bernard Seawell, vice president for finance and management, will chair a task force charged with recommending continuing means for reducing the College's energy consumption. Also serving on the committee will be Deans Philip Clarkson, Hilton Heming, George Pasti and Harold Perkins, Assistant to the President Donald Garrant, Facilities Planning Coordinator J. Derek Allan, Physical Plant Director Malcolm Collin, Engineer William Kilduff, Housing Director William Laundry, Student Association President Robert Rodriguez, **Cardinal Points** Editor Michael Rubenstein and WKGO Station Manager Rob Dumphke.

"We welcome suggestions for energy conservation from any member of the campus community," said Seawell.

Already the heat has been lowered in all College buildings by at least five degrees, lighting levels have been reduced in some hallways and office areas, and air circulating fans have been shut down in Saranac Dining Hall and the Campus School. Heat in College residence halls will be reduced to 55 degrees during the two-week holiday recess in late December and early January. Dispatchers in the College motor pool are urging faculty and administrators to travel in groups on out-of-town trips whenever possible.

"Of course," Seawell added, "these energy saving efforts demand everyone's cooperation if they are to be effective."

An ad hoc committee chaired by Vice President for Academic Affairs Joseph Burke will meet this afternoon to consider the possibility of rearranging the College calendar as a means of further reducing the College's energy consumption.

"Contrary to some rumors," said Dr. Burke, "no decision to alter the calendar has yet been made."

The members of the ad hoc committee include Collin, Rodriguez, Seawell, Dr. Ernesto Argyres, Richard Beach, Vice President for Student Affairs Willard Flynt, Dr. Howard Miller and Dr. J. Stallard Waterhouse.

## \$73,000 GRANT TO ASSIST DEVELOPMENT OF CANADIAN STUDIES PROGRAM

The William H. Donner Foundation has granted more than \$73,000 to the College's Center for International Studies for development of its program in Canadian Studies. The grant will cover a two-year period and provides funds for four specific efforts: retraining of faculty to strengthen Canadian Studies capabilities on campus; editing and writing an introductory set of readings in Canadian Studies to provide a sourcebook for undergraduates on campuses throughout the United States; conducting cooperative interdisciplinary research projects in Canadian Studies; operating summer workshops to assist primary and secondary school teachers in developing Canadian Studies materials for use in the public schools.

The Donner Foundation, with offices in New York City, funds programs which encourage better understanding of Canada and its institutions.

A detailed description of the plan for development of the Canadian Studies program will appear in the winter issue of **Accent: Plattsburgh State**.

## FACULTY SENATE APPROVES ACADEMIC POLICIES FOR GRADUATE STUDENTS

At its regular meeting Tuesday, the Faculty Senate approved a proposal for academic policies for graduate students and recommended that the policies become effective for graduate students matriculating in the 1974 fall semester. The policies are subject to approval by President Angell.

The Senate's proposal would establish, for the first time, a uniform College academic policy for graduate students.

## NEW S.A. CONSTITUTION APPROVED

By a vote of 839 to 91, Plattsburgh State students have approved a new Student Association constitution. The new constitution provides for a three-branch student government with executive, legislative and judicial functions. Officers in the new government will be elected next Tuesday (see following news item) and will serve one-year terms beginning January 1, 1974.

## S.A. ELECTIONS SCHEDULED DECEMBER 4: CANDIDATES' FORUM TONIGHT

The election of officers in the Plattsburgh Student Association will be conducted Tuesday (December 4). Polling hours had not been decided at press time because of a possible change in voting procedures.

The new SA constitution calls for election of a president, an executive vice president, vice presidents for finances, activities and student services, "no more than 15" student senators and five justices of a student court of appeals. At **Weekly's** deadline yesterday, 29 students had filed petitions of candidacy. Three of those who had filed petitions, Jon Butler, Joseph Quartuccio and Thaddeus Rutherford, are candidates for the Student Association presidency.

All candidates for election to SA office have been invited to participate in a **candidates' forum tonight** from 9:00 p.m. until 1:00 a.m. in the upper lounge of Wilson Hall. The forum is open to the campus community.

## DR. DONAHO TO MEET WITH CHANCELLOR

Dr. Melvin Donaho, chairman of the Faculty Senate, is one of a selected group of faculty leaders from SUNY units who have been invited to meet informally with Chancellor Ernest Boyer December 6 to talk about the University and to seek ways to effectively promote the University-wide interests of faculty. Dr. Donaho invites faculty members to share their concerns about the University with him so that he may convey them to the Chancellor during the meeting.

## COMMITTEE SEEKS COMMENTS ABOUT COMMENCEMENT

A campus committee studying the Plattsburgh State commencement program has asked **Weekly** to solicit expressions of feeling about the traditional commencement program from members of the campus community. Persons who have suggestions for changes in the commencement program, or who feel that the program should not be altered, are asked to convey their thoughts on the subject to committee chairman Robert Kellett or to any of the committee members: Dr. Hans Hirsch, Dr. Mary Anne Poston, Dr. Joseph Burke, Dr. James Ashe, Don Garrant, James Campbell, Sussy Komala or Thad Rutherford.

The committee's findings and suggestions will be reported to President Angell's Steering Committee.

## CAMPUS UNITED FUND DRIVE REACHES GOAL

The campus drive for the Clinton County United Fund has reached its goal of \$11,600. Fund drive chairman Don Garrant reports that this is the fourth consecutive year that the College has attained its goal.

Garrant credited the success of the drive to the assistance of more than sixty volunteer solicitors who represented students, the teaching faculty, non-teaching faculty, clerical, custodial and food service staff. "The entire college family went all out to raise funds to help the less fortunate in Clinton County," Garrant said. "It was a tremendous team effort."

## 'TRENDS IN CORRECTIONAL SERVICES' SUBJECT OF FORUM TONIGHT

The superintendents of the Clinton Correctional Facility and the Adirondack Correctional Treatment and Evaluation Center and the director of staff development for the State Department of Correctional Services will discuss "Current Trends in Correctional Services" at an open forum tonight in Macdonough Hall Lounge. Paul Clare, coordinator of criminal justice studies at the College, will moderate the forum, which begins at 7:30.

## SEVERAL CULTURAL AND EDUCATIONAL EVENTS SCHEDULED

Space limitations prevent the usual description of the special educational and cultural events scheduled on campus, and we refer you to the following calendar of events. Of special note are a performance tonight of the Jazz and Contemporary Ensemble, a planetarium show Friday night, and an exhibit of sculpture by William King opening Monday in the Fine Arts Gallery.

## EVENING COURSES LISTED IN CONTINUING EDUCATION BROCHURE

More than 225 continuing education night school courses, including 89 graduate courses, will be offered during the 1974 spring semester. The courses are listed in a free publication available now at the continuing education offices in the Kehoe Administration Building.

## PLATTSBURGH STATE

DEC. 6, 1973

### CAMPUS ENERGY CONSERVING MEASURES DETAILED

President Angell has approved plans for energy conservation prepared by a special task force representative of the College-community.

This action will enable the College to conserve fuel energy in all campus facilities. The College's oil supplier has notified College officials that Plattsburgh State's allocation of fuel oil will be reduced by 20 per cent.

The President emphasized that the calendar for the spring semester will **not** be changed. This decision was made after receiving a report from a special committee of faculty, students and administrators. After considering the serious effects on the program of the College, this Committee recommended that a change in the calendar **should only be made if sufficient savings in fuel could not be made by other means.**

Dr. Angell called for a College-wide commitment to cooperation and understanding of the need to conserve fuel and other forms of energy.

Among the measures that will be taken as a result of the task force's recommendations are the following:

- Three buildings -- the new College Center, Saranac Dining Hall and Harrington Residence Hall -- will remain closed during the winter period and will be maintained at a temperature of 55 degrees.
- During the College recess (December 22-January 13 and February 15-24) the following buildings will be closed and heated only to 55 degrees: all ten residence halls (with the exception of the center section of Macdonough Hall), the two remaining dining halls, Memorial Hall, the Campus School (with the exception of the Speech and Hearing Clinic and administrative offices), and the basketball arena in the fieldhouse.
- Already in effect at the ice arena in the fieldhouse -- the only campus building heated by electricity -- is a policy of maintaining the arena at a temperature of 55 degrees.
- A program aimed at reducing energy utilization will be initiated by reducing lighting levels, gasoline consumption, etc., within the limits established by security and without disrupting the academic program.

Special restriction will be placed on the use of state automobiles and an attempt will be made for state car pooling whenever possible.

In addition, the following fuel-saving measures will be instituted in all campus buildings:

- Thermostats will be turned down in all buildings to 67 degrees.
- Air changes will be reduced from three to one change per hour.
- Heaters at the various vestibule entrances to buildings will be reduced in temperature to between 45 and 60 degrees.
- Exhaust fans will be shut down where not needed.
- Temperatures will be reduced five degrees during the night cycle where air handling systems permit.
- Temperature will be reduced at building converters (principal temperature control).
- Temperatures in shower rooms and gymnasiums will be reduced.
- Domestic hot water temperatures will be reduced at selected locations.
- Temperatures will be reduced during non-occupied periods in Hawkins Hall Auditorium, Hartman Theatre and in lecture halls.
- All doors, windows and other openings must be closed at all times and drapes drawn at specified locations during the evening and opened during the sunlight hours.
- Radiation units will be cleared of all superfluous material to permit full circulation of heated air.

The task force was chaired by Bernard J. Seawell, vice president for finance and management.

### QUARTUCCIO NEW STUDENT ASSOCIATION PRESIDENT

 Joseph Quartuccio, a junior speech and hearing major from Huntington Station, New York, defeated Thaddeus Rutherford and Jon Butler in elections held Tuesday to become president of the Plattsburgh Student Association for 1974. Quartuccio received 334 votes to Rutherford's 286 and Butler's 244.

Elected to the Student Association Executive Council were David Kalet, executive vice president; Michael Murray, vice president for student services; Sol Irving, vice president for activities; Paul Mannino, vice president for financial affairs.

PLATTSBURGH STATE

DEC. 20, 1973

## *President Angell Announces Retirement*

**President Angell**

President Angell announced today that he will retire from the presidency of Plattsburgh State, effective August 31 of next year.

Dr. Angell's announcement comes about six weeks prior to the 20th anniversary date of the start of his administration at the College. Dean among presidents within the 72-campus State University of New York system, Dr. Angell assumed office February 1, 1954. His professional career in education spans four decades.

Although he is retiring from the presidency at Plattsburgh, Dr. Angell, who will be 62 next June, will remain active in the field of education. On September 1, 1974, he will become a University Professor at the State University of New York at Albany. A "University Professor" is so designated because he has university-wide responsibilities as defined by the chancellor.

In addition to some teaching duties at the Albany campus, President Angell will be assisting the University in certain studies of University-wide importance, such as collegiality and collective negotiations, management information systems in higher education, institutional decisions and adaptation to change, and alternatives to tenure.

Commenting on his retirement plans, Dr. Angell said:

"Eight months of service to this College are still ahead for me, so it is difficult to imagine what it's going to be like being separated from this scene of enlightened activity. One doesn't spend a third of his life in a wonderful community like Plattsburgh, and then walk away light-hearted."

"However," he added, "we are entering a new era of higher education in America and the College in Plattsburgh needs new, vigorous leadership with fresh ideas and abundant energy."

Selection of a successor to President Angell will be made by the University's Trustees on the recommendation of the Plattsburgh College Council, and the local Council is hopeful that the institution's next president will be chosen in time to take office by September 1 of next year. The first step in the search procedure will be formation of a committee representing the various College constituencies which will screen candidates and endorse one or more for formal council action. The College-wide search committee will begin its work early next month.

When Dr. Angell joined the College at Plattsburgh, the campus consisted of two buildings with another under construction. The academic program featured but three major disciplines; the College's undergraduate population was about 600; and the faculty numbered about 75.

It became President Angell's responsibility to develop, and to spearhead implementation of, long-range plans which would eventually double, then triple and then multiply the size of the College ten-fold. Plattsburgh State today is a modern \$60-million campus having 36 permanent buildings, with a teaching faculty of 299 offering study opportunities in some 50 academic specializations for an enrollment exceeding 4,500 students.

### **CHANCELLOR PRAISES DR. ANGELL**

Praise for Dr. Angell's accomplishments as President of Plattsburgh State was received today from State University Chancellor Ernest L. Boyer.

"Working with George Angell as a colleague for more than eight years has been for me a very special pleasure," said Chancellor Boyer. "Our association has been most rewarding, particularly during my years as Chancellor when his wise counsel and strong support as the senior president of the University have been deeply cherished.

(over)

"I feel a sense of personal loss in his retirement. However, I am heartened by the fact that the outstanding leadership George Angell has demonstrated during 40 years as an educator will not be lost to the University. His acceptance of a post as University Professor at the State University at Albany will make it possible for him to continue to contribute significantly to students and to faculty and administrative colleagues as well."

"On behalf of myself and all his associates, I wish President Angell every success and express on behalf of the University heart-felt thanks for his two decades of exceptional effort and leadership at the College at Plattsburgh, during which time it rose from a single-purpose teachers college to the truly distinctive, fully fledged liberal arts institute it is today."

#### **WINTER COMMENCEMENT TOMORROW AT 2:00**

President Angell will preside and confer degrees at tomorrow afternoon's informal Winter Commencement scheduled to begin at 2:00 in the Large Auditorium of Hawkins Hall. Attendance at the commencement ceremony is not mandatory for students or faculty, and 164 of the 350 students eligible to receive bachelors or masters degrees from the College at the end of this semester are expected to participate.

Degree candidates will be presented by Vice President for Academic Affairs Joseph C. Burke, and diplomas will be awarded by College Council member Claude Clark of Malone. Plattsburgh attorney Robert T. Booth, vice chairman of the College Council, will deliver the commencement address — "Decisions 1973."

#### **FOUNDATION AWARDS OF HONOR PRESENTED TO RODRIGUEZ, MRS. SIEGEL**
